RE: CEQ Review of the Vector Control 2015 Annual Plan of Work

---

At its October 15, 2014 meeting, the CEQ reviewed the above referenced matter. Pursuant to Chapter 450 of the Suffolk County Code, and based on the information received, as well as that given in a presentation by Dominick Ninivaggi, Superintendent with the Department of Public Works Office of Vector Control, the Council advises the Suffolk County Legislature and County Executive, in CEQ Resolution No. 45-2014, a copy of which is attached, that the proposed 2015 Vector Control Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement as approved by Suffolk County in 2007. Therefore, no further SEQR compliance is required pursuant to 6 NYCRR, Part 617.10(d)(1).

If the Legislature concurs with the Council on Environmental Quality's recommendation that the action is in conformance with the FGEIS and Finding Statement, the Presiding Officer should cause to be brought before the Legislature for a vote a determination that SEQR is complete and no further compliance is necessary.

Enclosed for your information is a copy of CEQ Resolution No. 45-2014 which sets forth the Council's recommendations. The project EAF and supporting documentation can be viewed online at <http://www.suffolkcountyny.gov/Departments/Planning/Boards/CouncilonEnvironmentalQuality>.

If the Council can be of further help in this matter, please let us know.

**RESOLUTION 45-2014, CONCERNING A SEQRA DETERMINATION FOR THE PURPOSES OF CHAPTER 450 OF THE SUFFOLK COUNTY CODE FOR THE 2015 VECTOR CONTROL PLAN OF WORK**

**WHEREAS**, at its October 15, 2014 meeting, the Suffolk County Council on Environmental Quality reviewed the EAF and associated information submitted by the Suffolk County Department of Public Works, Division of Vector Control; and

**WHEREAS**, a presentation regarding the proposal was given at the meeting by Dominick Ninivaggi, Superintendent with the Suffolk County Department of Public Works, Division of Vector Control; and

**WHEREAS**, the action involves the implementation of the 2015 Vector Control Annual Plan of Work by the Suffolk County Department of Public Works, Division of Vector Control to control mosquito infestations that significantly threaten public health, or create social or economic problems to the communities in which they occur. To achieve this goal, the Division employs an integrated control program. Control measures are employed in a hierarchical manner that emphasizes prevention. Control first proceeds from surveillance and more permanent "environmentally friendly" measures such as water management and biological control, then through the highly specific larvicides and finally, uses chemicals such as adulticides only after other measures prove to be either insufficient or not feasible. This integrated approach is recognized as the most effective and environmentally sound manner in which to conduct a mosquito control program. Only pesticides that are federally and NYS registered and approved for mosquito control will be used. All machine work within existing mosquito ditches for the purpose of eliminating mosquito breeding areas that involves BMPs 4 and above will be reviewed by the Suffolk County Office of Ecology within the Department of Health Services, the Council on Environmental Quality and the Department of Economic Development and Planning and approved by the N.Y.S.D.E.C. in order to minimize environmental impacts on wetlands; and

**WHEREAS**, Suffolk County Resolution No. 285-2007 adopted the Suffolk County Vector Control and Wetlands Management Long Term Plan and State Environmental Quality Review Act Findings Statement for the Final Generic Environmental Impact Statement; now, therefore, be it;

**RESOLVED**, that based on the information received, a quorum of the Council recommends to the Suffolk County Legislature and County Executive, pursuant to Chapter 279 of the Suffolk County Code, that the proposed 2015 Vector Control Annual Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement as adopted by Suffolk County. Therefore, no further SEQR compliance is required pursuant to Title 6 NYCRR Part 617.10(d)(1) and the Legislature and County Executive should adopt a resolution stating as such.
