Central Pine Barrens Commission Presentation on Ecological Services Project for DEC Sarnoff/Suffolk County Pleasure Drive Complex

John Pavacic, Executive Director of the Central Pine Barrens Commission along with William Bowman, Sr. Scientist at Land Use Ecological Services gave a presentation regarding the above project.

After an extended discussion regarding the details of the project, the CEQ noted that for this project they felt it was appropriate for the New York State Pine Barrens Commission to be Lead Agency and for Suffolk County to be an Involved Agency. The Council also discussed that pursuant to SEQRA requirements the Pine Barrens Commission as Lead Agency should coordinate with the appropriate Suffolk County agencies throughout the SEQRA process. The CEQ also requested that a letter from the Council to the New York State Pine Barrens Commission be sent requesting that the planning and implementation of this project include precautions for turtles that may be located in areas proposed for mechanical clearing and/or prescribed burns. Staff noted that they would draft the letter for the Council's review.
