CHILD CARE BENEFITS: (631) 854-3349

The department provides assistance to eligible families seeking child care for children between the ages of 6 weeks through 12 years. Families must meet income and program guidelines to receive this service. Child care may be provided to enable parents to work, attend eligible educational/training programs, mental health or substance abuse treatment; provide child care due to parental illness or incapacity, or as part of a child protective or preventive case service plan. Care may be provided in licensed day care centers, before and after school programs, family day care homes, registered family day care homes, and informal child care settings.

Please note effective July 2nd 2012 the Department will:

Continue accepting new applications for NTA Child Care services for working families; however due to state funding limitations, approvals will be limited to guaranteed populations as listed below:

- Families who have applied for or are in receipt of temporary assistance when such services are needed for a child under 13 years of age in order to enable the child's custodial parent or caretaker relative to participate in activities required by a social services official including orientation, assessment, or work activities as defined in 18 NYCRR Part 385;
- Families who are in receipt of temporary assistance (TA) when such services are needed for a child under 13 years of age in order to enable the child's parent or caretaker relative to engage in work as defined by the social services district.
- Applicants for or recipients of temporary assistance who are employed and would otherwise be financially eligible for temporary assistance benefits that choose to receive child care subsidies for a child under 13 years of age in lieu of temporary assistance benefits for such period of time as the applicants/recipients continue to be financially eligible for temporary assistance;

- Families transitioning from temporary assistance whose TA cases have been closed or who voluntarily close their TA case, and who are no longer financially eligible for TA due to an increase in earned income or child support. The family must include an eligible child under the age of 13 who needs child care in order for the parent to be engaged in work, and the family's gross income must be at or below 200% of the State Income Standard. For transitional child care, the eligibility period begins with the first month in which a family becomes ineligible for TA or "child care in lieu of TA" and is limited to 12 months in duration.

CHANGES TO THE MEDICAID AND HEALTH INSURANCE PROGRAMS UNDER THE AFFORDABLE CARE ACT (NEW YORK STATE OF HEALTH)

There have been significant changes to the way individuals and families apply for and receive health insurance in New York State. A number of key provisions of the Affordable Care Act went into effect in 2014.

Effective January 1, 2014:

- **Most** families and individuals must apply for health insurance (including Medicaid) through the New York State of Health (the New York Health Exchange) program, **either online, by telephone, or in-person through a Navigator or Certified Application Counselor**. Navigators and Certified Application Counselors are listed below. You can go online at www.nystateofhealth.ny.gov or call 1-855-355-5777 for additional information.
- **Clients applying for Medicaid who are disabled, aged or blind must still complete an application and send it to the Suffolk County Department of Social Services** as explained below under the MEDICAL ASSISTANCE/HEALTH INSURANCE section.
- The Family Health Plus program will be phased out in 2014 and no new enrollees will be accepted effective January 1, 2014. Persons **currently** receiving Family Health Plus will be transferred into the expanded Medicaid program, or, if not eligible for Medicaid, referred to the New York Health Exchange to choose a plan and apply for subsidies (assistance with premium costs).

MEDICAL ASSISTANCE/HEALTH INSURANCE

Medicaid provides payment for essential medical services for eligible Suffolk County residents through a variety of programs including traditional Medicaid, Prenatal Care Assistance Program, Medicaid Cancer Treatment Program, COBRA Health Insurance Program, AIDS Health Insurance Program, Family Planning Benefits Program and the Medicaid Buy-In Program for Working Persons with Disabilities. Services covered may include inpatient and outpatient hospital care, physician services, skilled nursing care, laboratory and X-ray services, early and periodic screening of children, home health care services, transportation services and prescription drugs.

Adults in need of protective services may include the frail elderly, the mentally disabled, the mentally retarded and developmentally disabled, the seriously ill, the physically disabled, and alcohol and substance abusers. Safe Haven Program: Hotline 1-866-TLC-BABY - 1 (866) 852-2229

In order to develop an alternative to mothers abandoning their newborn babies without ensuring their safety, New York State Law now allows for women with newborn babies to give them up within five days of birth with complete confidentiality and without having to identify themselves. In Suffolk we have taken the initiative to designate most hospitals in the county as "Safe Havens" to receive these newborns. Callers can remain anonymous, are invited to provide medical information about the infant (although it is not required), and, if the baby has not been harmed or neglected, the mother is safe from criminal prosecution.

Foster Care Services: (631) 854-9359

Places children who are in the custody of the Commissioner of Social Services (either through voluntary surrender or court order) in family foster homes, group homes, or licensed child care institutions. Room and board, clothing, medical care, and other special needs are supplied by this service.
