Patchogue, May 5: Legislator Rob Calarco lent his support on Saturday to the Paint the Towns Purple campaign, the official launch of the American Cancer Society (ACS) Relay for Life of Patchogue-Medford.

This year the launch took place at Dublin Deck in Patchogue, where cancer survivors and committed members of the Paint the Towns Purple campaign and the Relay for Life event gathered to play volley ball and raise funds.

The Relay event will take place June 2-3 at Patchogue-Medford High School, with the continued goal of raising money for the ACS. To create awareness for the event, the Paint the Towns Purple Campaign has embellished the towns' roadways with purple lines.
