FROM THE OFFICE OF LEGISLATOR ROB CALARCO **Blue Point Laundry Site Poised for Remediation** Calarco Passes Bill to Fund Process

Patchogue, LI—Leg. Calarco’s bill, IR 1814, appropriating funds to complete the onsite remediation of the Blue Point Laundry site, passed unanimously at the Aug. 21 meeting of the General Legislature. The onsite remediation, which will entail removal of contaminated soil, is expected to begin late this year or early next year.

“Getting this site cleaned up so that we can move forward is a high priority on my agenda and the County knows it. I am and will be pushing hard to see that it happens. As anxious as everyone is to move forward with redevelopment of the site, at this point the first order of business is to remediate the site. In the meantime, I will be working with the community as discussions for the future use of the property continue,” said Leg. Calarco.
