LEGISLATOR STEVE STERN TAKES PART IN CHESTNUT HILL ELEMENTARY'S "EATING THE RAINBOW" PROGRAM

Healthy Eating Program Teaches Students That Nutritious Foods Can Be Fun

Legislator Steve Stern with Ms. Riccobono's 1st Grade Class

HUNTINGTON, NY – Legislator Steve Stern (D-Huntington, 16th L.D), visited students at Chestnut Hill Elementary School and participated in their healthy eating program, "Eating the Rainbow." "Eating the Rainbow" is a week-long program where children bring in a fruit or vegetable that corresponds with that day's color of the rainbow. Students can be seen pictured above celebrating "green day" with apples, cucumbers, and grapes.

Legislator Stern stated "As a parent with young children myself, I know the importance of teaching children proper eating habits from an early age. I commend the parents and faculty at Chestnut Hill for their creativity, dedication, and hard-work in making this important program a success."
