**LEGISLATOR STEVE STERN ENHANCES COMPUTER EDUCATION FOR HEADSTART STUDENTS**

*Legislator Steve Stern visited students from the Head Start program to donate surplus computer monitors, which will be used to enhance computer education. The students posed for a photo, but then decided silly faces were more fun.*

**HUNTINGTON, NY** –Suffolk County Legislator Steve Stern (D-Huntington, 16<sup>th</sup> L.D.) visited students from Head Start, a non-profit organization, which promotes the school readiness of young children from low-income families, to donate four surplus flat screen computer monitors to its local programs.

Head Start promotes the school readiness of young children from low-income families through agencies in their local community. Head Start and Early Head Start programs support the mental, social, and emotional

development of children from birth to age 5. In addition to education services, programs provide children and their families with health, nutrition, social, and other services.

“Head Start provides an invaluable experience for so many in our community and I am proud to see these computer monitors in the hands of these bright, young children to further their future success,” Legislator Steve Stern said.
