Lung Cancer

...

Lung cancer is the leading cause of cancer death in the USA.

90% of lung cancer is caused by cigarette smoking.

The best way to protect yourself is to not smoke.

If you currently smoke or have ever smoked, talk to your doctor and:

GET SCREENED!

Early-stage lung cancer often has no symptoms. That is why it is so important to be screened and catch lung cancer before it spreads.

Your insurance plan may cover lung cancer screening.

A low dose CT scan takes only 10 minutes and can save your life.
