ORDER OF BUSINESS

Call to Order
Chairman Orlowski called the meeting of the Suffolk County Farmland Committee (Committee) to order at 6:05 P.M. at the Long Island Horticultural Research and Extension Center, 3059 Sound Avenue, Riverhead, NY.

Approval of Minutes
A motion was put forth by Mark Zaweski and seconded by Jeffrey Rottkamp to approve the minutes of the September 23, 2008 meeting of the Suffolk County Farmland Committee. Motion carried: 13-0-0.

Correspondences
The Committee was not in receipt of any correspondences unrelated to items on the agenda.

Suffolk County Workforce Reduction pursuant to Introductory Resolution No. 1205-2009
Due to the difficult economic times, Suffolk County Executive Levy submitted a bill that would authorize a reduction in the Suffolk County workforce, thereby eliminating budgetary shortfalls. Member Isles discussed the impending layoffs and their effects on the Committee staff. The Committee agreed that a staff cut would gravely impact its ability to function. The Committee offered to show its support by writing a letter to the Suffolk County Executive expressing concern
over the abolition of three key positions.

A motion was put forth by Alfred J. Kilb and seconded by Albert Schmitt to send a letter to the Suffolk County Executive, Steve Levy, expressing the Suffolk County Farmland Committee’s position against the abolition of three staff positions currently held by Jessica L. Kalmbacher, Karen Timlin, and Robert J. Zaher, as proposed by Introductory Resolution No. 1205-2009, because said staff positions are essential to discharging the Suffolk County Farmland Committee’s functions and to the county’s farmland preservation program. Motion carried: 12-0-0. [“Exhibit A”]

PUBLIC COMMENTS
Chairman Orlowski opened the meeting for public comments.

Pending Workforce Reduction
Suffolk County resident Joe Annunziata commended Committee staff member Jessica Kalmbacher and offered to write a letter of support on her behalf.

Permit Process
Guest Frank Blangiardo commented on the permit process and requested information about his pending permit. Chairman Orlowski informed Mr. Blangiardo that the permit would be issued by the end of the week.

POLICY MATTERS
Draft Proposed Amendments to Chapter 8, “Development Rights to Agricultural Lands”
The interdepartmental farmland working group continues to work on proposed amendments to Chapter 8 of the Suffolk County Administrative Local Laws, “Development Rights to Agricultural Lands.” Suffolk County Planning Department (Department) staff has received many comments thus far and continues to review and amend the draft. Department staff has met with several different boards, including the Town of Riverhead Farmland Preservation Committee and the Southold Town Land Preservation Committee, among others. Department staff intends to complete revisions to the draft and provide the Committee with a copy of the draft proposed amendments by the next meeting.

STATUS UPDATE
Irene J. Detmer Revocable Trust, Detmer Farm (0200 13200 0200 001001, 001002) The subject property is approximately 30.2 acres and is in the hamlet of East Setauket, Town of Brookhaven. On March 24, 2009, Department staff conducted a follow-up site inspection regarding the possible unauthorized yard waste collection and storage. Department staff was unable to determine the exact composition of the pile. Member Moyer informed the Committee that New York State Department of Environmental Conservation regulations limit composting piles to 3,000 cubic yards without a permit and 10,000 cubic yards with a permit. The Committee directed Department staff to contact the tenant to determine the composition and intended use of the compost pile. Department staff will report findings at the next meeting.
* Member E. Murphy arrived.

**Quintal, Brightwaters Farms & Nursery (0500 22300 0100 021001)**
The subject parcel is approximately 11 acres and is located in the hamlet of North Bay Shore, Town of Islip. On March 24, 2009, Department staff conducted a follow-up site inspection to investigate potential violations. The site conditions were consistent with those witnessed during the previous site inspection conducted on January 22, 2009. Member Murphy informed the Committee that the Town of Islip has a pending lawsuit against Mr. Quintal, specifically regarding potential code violations. All information was forwarded to the Suffolk County Law Department.

**COMPLAINTS/POTENTIAL VIOLATIONS**

**Shoreline Development Corp. (0600 05800 0200 013001, 014002)**
The subject property consists of approximately 33 acres in the hamlet of Calverton, in the Town of Riverhead. During the January 27, 2009 meeting, the Committee passed a motion for the issuance of a permit that granted the landowner permission to build several farm structures (See applicable Suffolk County Farmland Committee meeting minutes). On March 20, 2009, Department staff conducted a site visit to investigate complaints received regarding the alleged removal of topsoil along the northwestern portion of the property and the alleged dumping of debris on the southwestern portion of the property. During the site visit, Department staff noticed that soil had been disturbed since the last site visit; however, Department staff was unable to confirm whether or not said disturbed soil had been removed off-site. Department staff spoke with Emily Stevens, the tenant, who informed Department staff that the soil had been disturbed to improve draining and that said disturbance was associated with the installation of the Committee-approved structures. According to Ms. Stevens, no soil had been removed off-site. Member Isles highlighted the need to address whether the activity is allowed under farmland guidelines. A discussion ensued. Staff will continue to monitor activities on the subject property and will report back any new findings to the Committee.

**PERMITS**

**John P. Kujawski and Sons, Inc. (0600 02200 0200 011005)**

The subject parcel is approximately 120.1 acres and is located in the hamlet of Northville, Town of Riverhead. The applicant seeks a permit to construct a 7,200 square-foot agricultural machine and straw storage building on the northwestern portion of the property.

A motion was put forth by Albert Schmitt and seconded by Lee Foster to classify the proposal as a SEQRA Type II action, pursuant to 6 NYCRR §617.5(c)(3)(1995) and to issue a permit for one (1) machine and straw storage building structure with no connections to any utilities, which shall not exceed a footprint of 60’ by 120’, on Suffolk County Real Property Tax Map lot 0600-022.00-02.00-011.005, as delineated on the submitted site plan. Drainage Basin Structures
The subject parcel is approximately 165 acres and is located in the hamlet of Riverhead, Town of Riverhead. The applicants seek a permit to build five vertical drainage basins throughout the property. This matter had been tabled at both the September 23, 2008 and November 25, 2008 meetings because the applicants were not present. The applicants requested to postpone the matter until this meeting of the Committee. Both Gary Vogel and Matt Rowehl were in attendance to represent the application. The applicants indicated that the proposed structures were necessary to mitigate stormwater runoff and to prevent erosion. The Committee advised the applicants that such improvements would need to comply with Natural Resources Conservation Service guidelines.

A motion was put forth by Lee Foster and seconded by Nate Corwin to classify the proposal as a SEQRA Type II action, pursuant to 6 NYCRR § 617.5(c)(3)(1995) and to issue a permit for five (5) vertical drainage basins, which may range in size from 1,888 square feet by two feet deep to 30,000 square feet by three feet deep, as delineated on the site plans titled “Southeast Property Plan View, East Coast Nursery, Suffolk County, New York” and dated December, 2007 and “Northwest Property Plan View, East Coast Nurseries, Suffolk County, New York” and dated December, 2007, for the purpose of preventing future erosion to the subject property and adjacent properties, subject to the condition that said structures shall be installed and maintained in accordance with Natural Resources Conservation Service recommendations. Kilb, Jr. and seconded by Eugene Murphy to classify the proposal as a SEQRA Type II action, pursuant to 6 NYCRR § 617.5(c)(3)(1995), and to issue a permit for one (1) run-in shed structure, which shall not exceed 27’ by 36’, on SCRPTM lot 1000-056.00-01.00-011.10, within the footprint of the “Proposed Stable” structure delineated on the site plan titled “Map of Property, Map of Mill Creek Preserve, Situate: Arshamomoque, Town: Southold, Suffolk County, NY” and dated February 17, 2009, subject to the condition that the landowner shall submit a revised site plan indicating the exact size and location of the proposed run-in shed structure to the Suffolk County Farmland Committee. Farm Operation Concept Plan

The subject parcel is approximately 241.7 acres and is located in the hamlet of Shelter Island Heights, Town of Shelter Island. The property has a rich agricultural history and has been owned by the same family for sixteen generations, tracing back to 1652. Although the land had been fallow for quite some time, recently the property has been brought back into active agricultural production. Farm manager, Bennett Konesni, was in attendance to present the new farm operation concept plan along with Sara Gordon from Peconic Land Trust. Mr. Konesni provided the Committee with background information about the property and then presented the plan. The agricultural operation will likely include the cultivation of vegetables, lettuce, and potatoes; the raising of livestock (e.g., goats and pigs); the restoration of the historic windmill located in the southern field; the processing of dairy products; and the direct marketing of agricultural products from a farm stand to be built on the premises. In addition, Mr. Konesni intends to establish a Community Supported Agriculture operation and to create a partnership with local businesses and the school district whereby he would provide them with fresh, local produce and educational opportunities. Mr. Konesni intends to offer the development rights to parts of the parcel in staged phases. Ms. Gordon indicated that the Shelter Island Town Supervisor, Jim Dougherty, has expressed enthusiasm for preserving this land. The final plan will be presented to the Committee at its subsequent meeting.
