The subject parcel is approximately 39.4 acres and is located in the hamlet of Water Mill, Town of Southampton. POLICY MATTERS
Agricultural Districts - 2010 Open Enrollment Period (pursuant to NYS AML §303-b)
January is the Suffolk County Agricultural Districts Open Enrollment Period (OEP), the time during which landowners of viable agricultural lands may submit applications to have their properties considered for inclusion in existing certified agricultural districts. Applications are available at the Planning Department office and on the Planning Department website. All applications must be received during the month of January in order to be considered. After the close of the OEP, the Suffolk County Agricultural and Farmland Protection Board (Board) will review the submitted applications. Upon recommendation by the Board, the Suffolk County Legislature (Legislature) will review and submit the requests for inclusion to the Commissioner of the New York State Department of Agriculture and Markets. All parcels approved by the Commissioner will then be included in the appropriate agricultural districts, effective immediately. Applications were distributed to the Committee and guests. [Exhibit B]

Draft Proposed Amendments to Chapter 8, “Development Rights to Agricultural Lands”
Planning Staff advised the Committee that a final draft of the proposed amendments to Chapter 8 of the Suffolk County Administrative Local Laws, “Development Rights to Agricultural Lands” had been submitted in October to the Suffolk County Executive (County Executive) for his consideration. The County Executive’s office advised that the proposed amendments are tentatively scheduled to be introduced at the meeting of the Suffolk County Legislature (Legislature) on January 4, 2010. Once the final draft has been filed with the Legislature, Planning Staff will send out copies to the Committee and will advise of the public hearing date.

OTHER BUSINESS

Utilities Infrastructure
Mr. Funfgeld asked the Committee whether underground mains may be permitted on Suffolk County preserved farmland. Chairman Orlowski indicated that underground utilities which support the commercial agricultural operation may be permitted but are subject to review by the Committee.

Mr. Funfgeld then told the Committee that the wind turbine on an out parcel at Windy Acres Farm, which is connected to the power grid by underground utilities infrastructure beneath areas of preserved farmland, is scheduled to be removed by the Long Island Power Authority (LIPA). Counsel Spahr informed Mr. Funfgeld that any disruption to county-preserved farmland requires prior review and authorization by the Committee. Counsel further indicated that it is Mr. Funfgeld’s responsibility to notify LIPA of this requirement and to ensure all necessary applications are submitted for consideration.

* Member A. Kilb arrived during the above discussion.

Member Absence
Member Isles stated that Member Jones had notified that she was unable to attend the present meeting since she was required to attend another meeting by her Town Supervisor. This brings into question what would be considered an excused member absence.

NYS Department of Agriculture and Markets Farmland Protection Implementation Grants
The Committee was presented with an update about the awards granted to Suffolk County by the New York State Department of Agriculture and Markets (NYS DAM) pursuant to the Farmland Protection Implementation Grant (FPIG) Program and about county-state policy discrepancies that have made it difficult for Suffolk County to apply for funding. Although Suffolk County was awarded $3.9 million to preserve three farms in 2008 and $1.7 million to preserve one farm in 2009, these were the only four farms eligible based on the changes to the FPIG Program. One example of a policy discrepancy involves residential structures: the FPIG Program permits residential structures on preserved farmlands in the area of the farm designated as the homestead; whereas, the Suffolk County Purchase of Development Rights Program requires areas containing residential structures be excluded from the development rights acquisition. This and other policy matters have made it quite difficult to finalize deed and contract language to the satisfaction of both the county and state. Subsequently, Counsel Spahr highlighted the larger issue at stake which is that if Suffolk County
were to agree to NYS DAM’s policy and contract stipulations, it may in effect be creating a separate and conflicting farmland preservation program. A meeting is scheduled with the Long Island Farm Bureau regarding this matter, and a dialogue will continue with NYS DAM to address the policy issues.

Status of Funding for Farmland Preservation Efforts
Member Isles indicated that the County Executive and Legislature continue to pledge strong support for farmland and open space preservation using quarter percent sales tax revenue as a primary funding source. Suffolk County is close to preserving a milestone 10,000 acres of farmland. Most recently, the Suffolk County Environment, Planning, and Agriculture Committee approved a resolution (IR 2062-2010) authorizing the acquisition of development rights to the property known as Hopping Farm (also known as Pike’s Farm Stand). Although the acquisition of Hopping Farm will be expensive, it has immense community support and involves a unique partnership between the county, town, and Peconic Land Trust (PLT) that may serve as a model for future development rights acquisitions. A major component of this model is the sale of the underlying fee of the preserved land by PLT to the current tenants at an affordable price, with restrictions designed to ensure that the land remains in active agricultural production.

Subsequent to the conservation about the preservation of Hopping Farm, Member Kilb inquired about federal funding opportunities. Member Isles informed the Committee that federal grant money is rarely used due to specific federal stipulations which conflict with the intent of the Suffolk County Purchase of Development Rights Program. The Debra Light Preserve in East Hampton was the last farm preserved by Suffolk County with federal grant assistance.

ADJOURNMENT
A motion to adjourn was made by Albert J. Kilb, Jr. and seconded by Joseph Krukowski. Motion carried: 16-0-0.

Agricultural Districts 2010 Open Enrollment Form

Pursuant to Article 25-AA of the New York State Agriculture and Markets Law, as amended in 2003, the Suffolk County Legislature (Legislature) has designated the month of January as the Open Enrollment Period during which time farms may join existing certified agricultural districts.

This form is to be completed by the landowners of farm parcels used in commercial agricultural production who are requesting inclusion of those parcels within existing agricultural districts certified by the New York State Department of Agriculture and Markets. The information obtained from this form will be used by the Suffolk County Agricultural and Farmland Protection Board (Board) to evaluate the appropriateness of such request.
